Supreme Court Holds Government Is Responsible.

MAY DAY DISORDERS

Striking Printers Singing Revolutionary Songs Parade and Mix Matters With the Police, Typos Retreating.

UNCLE SAM MUST PAY

Matter, Which Had Its Inception a Half Century or More Ago, Refers to Cherokees' Going to Indian Territory.

Paris, May 1.—In addition to the occupation of the Place de la Bourse by troops early Tuesday prior to the opening of the Bourse, a battalion of Infantry was stationed on the terrace of the building and detachments of cavalry drawn up at each of its wings. Boulevards Place de la Concorde, Place de l'Etoile and Place de la Bourse presented a normal aspect, traffic being uninterrupted except in the case of cabs. Workmen quietly gathered on Place de la Republique.

Owing to the increase in the excitement on Place de la Republique, troops interfered and hundreds of arrests were made. The prisoners were immediately taken before magistrates who quickly passed on the cases, and the disturbers of the peace were taken to jail.

Detachments of troops took up positions around the Bank of France. Striking printers attempted a march in procession from Bourse du Travail (labor headquarters), singing revolutionary songs. They attacked the police, who intervened and later were compelled to draw revolvers. The procession was then broken up.

A squadron of cuirassiers with an ambulance occupied a part of Place de l'Etoile, facing Campus Elysee. Detachments of cavalry patrolled the thoroughfares in the vicinity of ministries and Quad d'Orsay. A police guard was stationed at the American embassy.

Cavalry and infantry detachments took up positions assigned them throughout Paris, as a precaution against May day disturbances. Authorities expected all arrangements to preserve order.

There was no indication of any excitement in the Central district early Tuesday.

Place de la Republique was the scene of continuous arrests. The number of disorderly persons was increased by several thousand. A detachment of 400 infantry stacked arms on Place de l'Etoile.

Many anarchists have been expelled from Paris, including St-phane Quercioff, and one woman. M. Levy, secretary of the Confederation of Labor, and M. Fromentin, a wealthy anarchist, have been arrested. Delegates from all trades assembled at labor headquarters.

A squadron of cavalry charged manifestants on Place de la Republique, forcing the rioters toward St. Martin canal. Dragoons then formed a cordon, cutting off ingress to the square. Fifty additional arrests were made.

DENIED BY HARRIMAN.

Not Opposed to Panama Canal, but Wants Railroads Protected.

Seattle, Wash., May 1.—E. H. Harriman, president of the Union Pacific railway and allied lines, addressing an audience of Seattle business men, denied he was opposed to the Panama canal, but warned the people against what he termed "anti-railroad agitation," which, he said, is now so pronounced throughout the country. He said that while water transportation should be encouraged, the people must not forget land transportation, which is of greater importance. This is Harriman's first public utterance on the subject of the Panama canal.

He promised the Seattle shippers that the Union Pacific would reach this city as soon as the necessary franchises were granted to enable it to come, adding that construction will be commenced at this end of the line the moment the opportunity was offered.

In Procuring Supplies.

Washington, May 1.—There was a brief discussion in the senate Tuesday on the disposition of the \$2,500,000 appropriation for the benefit of the San Francisco sufferers. Mr. Allison said that practically the entire sum had been expended in procuring supplies under direction of the secretary of war.

WILL BE PUSHED.

Prosecutor Says He Has Opened Fight After Due Deliberations.

Toledo, O., May 1.—An interview on the filing of ouster suits against the Standard Oil company and seventeen railroads in the state, Prosecutor Wachenheimer said: "The suits will be pushed. I have opened the fight after due deliberation. I want every public spirited citizen to get into the fight with us. Any citizen or independent oil producer with a grievance should come and help us. A concerted action will accomplish more than we can do alone."

Elgin Butter Sales.

Elgin, Ill., May 1.—Butter steady unchanged, at 20 cents a pound. Output for past week was 515,000 pounds.

JAM QUEEN-MAKER
NOTHING BUT THE BEST

FOOD SHORTAGE.

General Impression Was That There Was an Abundant Supply.

San Francisco, May 1.—A feeling akin to consternation was created at the meeting of the general municipal committee Monday when Mayor Schmitz stated that the city faced a

shortage in the food supply. It had been the popular belief, and that of many officials also, that San Francisco through the generous aid of the nation had been placed in a position above want for a long time to come, and the mayor's declaration came in the nature of a painful surprise. Mayor Schmitz informed the general committee from information in his possession it appeared that 700 carloads of food and supplies of various description had been distributed since the morning of the earthquake on April 18, and the Southern Pacific, Santa Fe and other transportation lines had information of only 180 cars on the way.

"If," said the mayor, "this information is correct, and I have no reason to doubt it, we will soon be worse off than we were a week ago. If the information has gone abroad through the country that we are amply supplied it is most unfortunate, for it is apparent that we are."

ATTEMPT AT ASSAULT.

In This Case the Intended Victim Is a Little Girl.

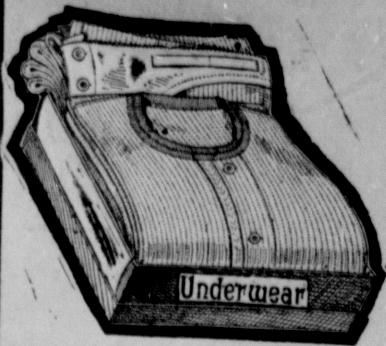

Hempstead, Tex., May 1.—An attempt to criminally assault the nine-year-old daughter of John Stifka, a German farmer of the Sunnyside section, about fourteen miles south of Hempstead, was made. Officers immediately took up the matter, but soon became convinced that the child's assailant had made good his escape from the county by rail. The attempt at so heinous a crime is laid to a negro farm hand.

As soon as possible the alarm was given, and searching parties pursued the search throughout the interval to date. The little girl was uninjured.

SKETCH OF ROUSE.

Director in at Least Twenty-Five Different Companies.

Cleveland, May 1.—H. C. Rouse, who died here Monday of pneumonia, in early life was largely interested in the

HUNTER & CHATHAM

Men's Furnishers

manufacturing business in this city. In 1885 he became interested with the syndicate that built the Chicago, Wisconsin and Minneapolis railway. Subsequently, he became identified with John D. Rockefeller in the latter's railway interests. He represented Mr. Rockefeller on the boards of a number of railway companies. At the time of his death Mr. Rouse was a director in at least twenty-five transportation companies. He was a member of the Union Country club of this city and of five leading clubs in New York.

MISS ROGERS RAPED.

Virginia Young Lady Criminally Assaulted by Black Brute.

Richmond, Va., May 1.—Miss Lena Rogers, daughter of Rudolph Rogers, of King Court House, was criminally assaulted Monday by Gabriel Battle, a negro. The latter was lodged in jail, and excitement ran high in the community. A company of militia guarded the jail Monday night.

Disposed of Holdings.

Baltimore, May 1.—What is looked upon here as the first result of the investigation by the interstate commerce commission in the relations existing between the coal carrying railroads and mining companies, on their lines is the announcement that the Baltimore and Ohio railroad has disposed of its holdings of the stock of the Consolidated Coal company.

Dies In Convulsions.

San Antonio, May 1.—After taking a drink of wine Monday night Jack White, in jail, charged with the murder of P. H. Pond, was taken with convulsions and expired at midnight.

More Money Asked.

Washington, May 1.—A resolution was presented to the house Monday by Representative W. R. Hearst of New York appropriating \$2,500,000 additional for the California earthquake and fire sufferers.

Bitten by Snake.

Rusk, Tex., May 1.—Lee Huddlestone, general manager of the Rusk Lumber company, was bitten by a venomous snake on his back gallery. He may lose a foot.

AMERICANS AHEAD.

They Have Won the Majority of the Olympic Games Thus Far.

Athens, May 1.—The Americans have already won the greatest number of events in the Olympic games. The Greeks come next with the Swedes probably third and Englishmen fourth. The superiority of individual American competitors is acknowledged by all, but the defeated athletes are endeavoring to find some solace in the fact that the Americans have had many strings to their bow and hold superiority of numbers in nearly all events.

ALL QUIT WORK.

Every Tug in the Harbor of Cleveland Is Tied Up.

Cleveland, May 1.—Every member of the International Longshoremen, Marine and Transport Workers' union employed on boats and docks by Lake Carriers' association quit work at midnight Monday and not a pound of ore, coal and grain is being handled in the port of Cleveland. The same condition exists practically at every Lake Erie port.

Every tug in the harbor was tied up Tuesday morning. The Licensed Tugs' association is affiliated with the longshoremen as are the firemen on tugs, and not a screw on union tugs was turned after midnight Monday night. In the port of Cleveland, 4,000 men are directly affected, 1,000 of whom are seamen. About 600 laborers went out on the Cleveland and Pittsburgh dock alone. Train crews of innumerable railways will be thrown out of work because of stoppage of coal traffic. It is estimated that if the strike lasts for one month 30,000 men in Cleveland alone will be thrown out of work.

ALMOST AT STANDSTILL.

Owners of Vessels Are Making No Effort to Move Craft.

Chicago, May 1.—Lake freight traffic is for the greater part at a standstill here, vessel owners making little apparent effort to move their vessels. They say, however, they will move their vessels when they are ready to do so. The center of the strike so far in this city is concerned, is not in the city proper, but in South Chicago, where mills of the Illinois Steel company, a branch of the United States Steel company, are located.

Several of the vessels at this place made haste to get away before the strike order was issued. Their men were out in the lake when the strike materialized.

Passenger boats running out of Chicago have not so far been affected by the strike and there is no immediate prospect that they will be.

NUMEROUS STRIKES.

Majority of Them in New England Confined to Building Trades.

Boston, May 1.—May day was marked by numerous strikes in New England. The majority of the difficulties was confined to the building trades. Strikes of carpenters occurred at Lawrence and vicinity, and in other places. At Lawrence the men, about 1,000 in number, demand an eight-hour day at a wage of \$3. In Lynn about 200 machinists who desire a nine-hour day with half holiday Saturday are idle, and a number of carpenters, painters and plumbers are also out. Conditions are unsettled in the Capin Granite district, in Black Stone valley and Fall River building trades, and several branches of building trades in other places.

THREE POLICEMEN SLAIN.

Heavy Rain Is Believed to Kept Back Demonstrations.

Warsaw, May 1.—Three policemen were killed in the streets here during Monday night, but the threatened May day outbreaks had not materialized up to 2 o'clock Tuesday afternoon. Warsaw is like a city of the dead. The shops and restaurants are closed. No cabs and no street cars are running, and no newspapers are being sold. The streets are patrolled by troops, but a heavy rain kept the populace in doors.

REPAID KINDNESS.

Made Up Ten Thousand Dollars and Sent Money to Frisco.

San Francisco, May 1.—The Tenth regiment of Pennsylvania, which camped in this city at the time of the Spanish-American war, sent a donation of \$10,000 to the relief committee. In a note the officers told how well they were treated by the people of San Francisco during their sojourn here, and said that as a token of appreciation they made up this handsome purse to help out the big hearted people of this city.

Inaugurated at Midnight.

Luluth, Minn., May 1.—Great Lakes marine strike was officially inaugurated at the head of the lakes at midnight Monday night on orders received from chief of the Longshoremen's union calling them out. Tugmen, however, were not notified and they worked as usual. Men on boats subject to strike orders are union mates, firemen and oilers.

Alumni Assembled.

Baltimore, May 1.—The special feature of the second day's celebration of the anniversary of the Baltimore cathedral was the meeting of the alumni association of the Christian schools, which was largely attended.

Stromboli Getting Busy.

Messina, May 1.—The volcano of Stromboli, after a period of quiet, is resuming activity and is emitting smoke and solid material.

Black Flag Causes Fight.

Brest, May 1.—Strikers carrying a black flag were charged by the police. A severe fight followed. The flag was seized and many arrests made.

HAPPENINGS CONDENSED.

Federal court is in session at Vinita, I. T.

Four hundred Indianapolis carpenters are on strike.

Thirty-four union bakers are on strike at Houston.

Several large structures are being erected at San Angelo, Tex.

Jack Brandon fell under a train at Texarkana and an arm was cut off.

Tulsa, I. T., Evening World is to become a morning paper after 15th inst.

Twin City Shoe company at Texarkana assigned. Liabilities, \$11,000; assets, \$9,000.

HIGGS & McCULLOCH

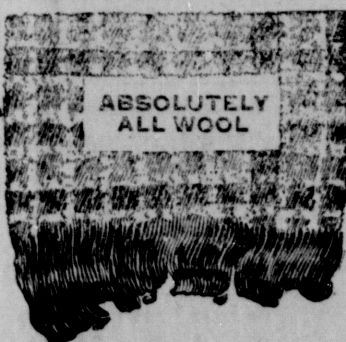

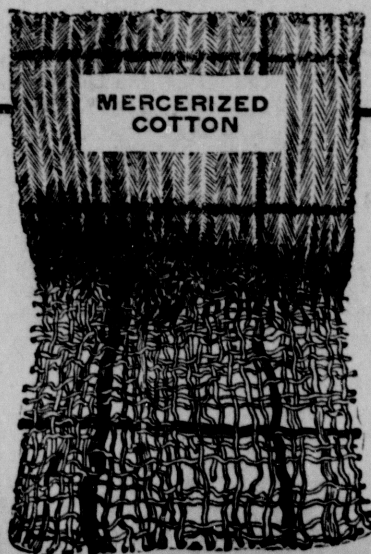

Woolen Will Wear IN ALL WEATHERS

Argue as they will, one fact remains: Cotton adulterated cloth will neither keep its shape nor wear under any conditions. Pure woolen cloth will. Our Stein-Bloch Smart Clothes are made of pure woolens, tested by the wool test, which is the beginning of all

Stein-Bloch Clothes

The only reason why cotton is substituted for wool in mercerized fabrics is to cheapen the goods. A house is no stronger than its foundation. So with clothes. Cheap fabrics mean cheap clothes; and no matter how shrewdly they are tailored, they will be untrustworthy. Stein-Bloch employ no mercerized or cotton adulterated fabrics. Their goods are pure caustic-tested wool, and the clothes made from them wear and keep their shape.

The Stein-Bloch Wool Test

The Stein-Bloch Wool Test consists of a boiling solution of water and caustic potash, the chemical action of which dissolves wool but not cotton. The two samples here shown were originally of the same length; the test proved one to be all wool, consuming the part immersed and leaving only the blackened edge. The other proved to be an adulteration containing a large per cent of mercerized cotton.

Stein-Bloch Suits \$17.50 to \$25.00

Kirschbaum Suits \$10.00 \$12.50 \$15.00

Kirschbaum Clothing Plant is the largest in the world, and these clothes from \$10.00 to \$15.00 have no equal. Give us a look, we can please you.

MONROE EDGE

We have sold 2000 acres of farm
lands in the last few days, which is
evidence of our ability in turning
real estate.

We know it is a little unbecoming
to boast, but you know every dog
must do his own wagging, and think-
ing ours is duly entitled to a wag we
haven't hesitated to give it one
little shake.

We hardly understand why the in-
vestor invariably comes to us. But
it is a known fact that he does.

We have had several thousand
circulars printed, showing the good
points about Bryan and Brazos
County, and to meet the demand we
expect in the near future we must
increase our list of property for sale.
If you are in the market for a home
or have something to offer, come to
see us. We have a demand for sev-
eral places in Bryan to cost from
\$500.00 to \$1000.00.

For list of farm lands see weekly
papers published at Bryan.

Early Risers

THE FAMOUS LITTLE PILLS.

For quick relief from Biliousness,
Sick Headache, Torpid Liver, Jaun-
dice, Dizziness, and all troubles aris-
ing from an inactive or sluggish liver,
DeWitt's Little Early Risers are un-
equalled.

They act promptly and never gripe.
They are so dainty that it is a pleasure
to take them. One to two act as a
mild laxative; two or four act as a
pleasant and effective cathartic. They
are purely vegetable and absolutely
harmless. They tonic the liver.

ARRIVE TO CONFER.

Commission Men Claim Pending Suits
Are Demoralizing Business.

Austin, May 1.—A party of stock-
men and representatives of different
commission companies against which
anti-trust suits were filed by the state
reached here to have a conference with
the attorney general regarding the
pending suits. The purpose of the con-
ference is to ascertain to what extent
the commission firms have violated
anti-trust laws for being members of
the Fort Worth Livestock Exchange,
and see if a compromise or agreement
can be reached in the matter. Com-
mission men claim that the suits are
demoralizing their business. Among
those here are: Ike T. Pryor, presi-
dent Texas Cattle Raisers' association;
also of Evans-Snyder Commission com-
pany; ohn T. Lytle, secretary Texas
Cattle Raisers' association; George T.
Reynolds, of Gedair-Crowley Commis-
sion company; Mr. Sansom, of Cas-
sidy Southwestern Commission com-
pany, and Attorney Cauty of Fort
Worth.

CAMPAIGN FOR CHURCH.

Biblical injunction, "Owe No Man
Anything," is Plan.

Fort Worth, May 1.—The congrega-
tion of East Leuda Christian church
began a campaign to build a \$10,000
church on a new plan. Efforts will be
predicated on the Biblical injunction,
"Owe no man anything." Rev. W. H.
Gooch is pastor.

Members of the Fort Worth Live-
Stock Exchange will go to Austin to
confer with the attorney general re-
lative to pending penalty suits. It is
hoped some method of settling the
controversy may be evolved and strong
efforts will be made in that direction.

Members of Younger Bros. Wild
West show filed suits against the own-
ers, attaching the tent, cars, horses,
etc., for salary alleged to be due. The
aggregation has been filling a nine
days' engagement at Rosen Heights,
and is in charge of N. and Scout
Younger.

TOPPLED FROM CHAIR.

Frank M. Aldridge, a Leading Lumber
Man, Suddenly Dies.

Houston, May 1.—At 10 o'clock
Tuesday morning while seated in his
office in conversation with Manager
B. F. Bonner, and Receiver J. S. Rice,
Frank M. Aldridge, manager of the
Kirby Lumber company, toppled from
his chair dead. He was one of the best
known lumber men in the state. He
was forty years of age and is survived
by a wife and two children. Paralysis
of the heart caused his death.

CUTS HER THROAT.

Extremely Aged Woman Said God Had
Forgotten Her.

Chicago, May 1.—A dispatch to the
Record-Herald from Uniontown, Pa.,
says: Tiring of life after 108 years of
trouble, Mrs. Mary McKittrick, believed
to have been the oldest woman in
America, committed suicide here by
cutting her throat with a carving
knife. She declared that God had for-
gotten her and neglected to call her,
though all the friends of her youth
were gone and all but one of her chil-
dren had died of old age.

BETTER BALING.

Prominent Texans and Spinners Con-
fer at National Capital.

Washington, May 1.—Judge C. W.
Ogden, San Antonio; F. R. Bennett,
a prominent cotton factor of Houston;
President Calvin of the Farmers'
union, and Messrs. Miller and Davis,
also of the Farmers' union, attended
a conference between spinners and
growers at the Willard hotel. The
subject was "Securing Better Baling."
John A. Wray has been nominated
for postmaster at Laredo.

STEAMER STRUCK.

Hit by Bark Kate Thomas and Goes
to Bottom of Ocean.

New Haven, Eng., May 1.—The Brit-
ish steamer Blenheim was sunk off
Beachyhead Tuesday by the British
bark Kate Thomas, from Antwerp for
Callao. Five persons are reported
drowned. The captain and nine mem-
bers of the crew were landed here by
a pilot boat. It is believed fourteen
others were also saved. The cargo of
the Blenheim is valued at \$250,000.

STOLE CORNERSTONE.

Weights About Three Hundred Pounds
and Part of Church.

Pasadena, Cal., May 1.—Thieves
Monday night stole the cornerstone of
the North Pasadena Methodist church.
The stone weighs about 300 pounds
and contained coins and other small
valuable worth probably \$10. The
church was just completed. The cor-
nerstone was pried out of the building
and removed from the premises.

STRAWBERRY SHIPMENTS.

Thirty-Six Carloads Were Sent From
Smith County Monday.

Tyler, Tex., May 1.—Smith county
Monday shipped out thirty-six solid
cars of strawberries.

Dragged Some Distance.

Texarkana, May 1.—Ed Cate, a Tex-
as and Pacific railway switchman, was
struck and killed by a switch engine at
4 o'clock Tuesday morning. His body
was dragged some distance. He was
single and well known.

Much Land Flooded.

Natchez, Miss., May 1.—A levee in
Concordia parish, Louisiana, broke,
flooded 2,000 acres. Two miles of
Texas and Pacific tracks in Bogere
ewamp were washed away.

Seventeenth Session.

Boston, May 1.—The seventeenth
annual congress of the Society of Sons
of the American Revolution was open-
ed here Monday.

SIZE AGAINST HIM.

Burnett Afraid Speaker Cannon Could
Not See Him.

Washington, May 1.—When Mr. Bur-
nett of Alabama began to talk in the
house Monday on the subject of free
seeds, Mr. Wadsworth of New York,
in charge of the agricultural appropria-
tion bill, asked him to withhold re-
marks until the paragraph dealing
with "plant industry" was reached.
"I was afraid that I would not either
be seen nor heard by the chair if I
waited until then," replied Mr. Burnett
amid laughter, his small stature lend-
ing color to the laconic observation.
He said if the members of the house
would go with him to the one-horse
farm, "the man with forty acres and
a mule," they would see that the rural
districts were in favor of the appropria-
tion.

Mr. Burleson of Texas said that the
honest farmers were against the free
distribution of seed. It was a form of
petty "graft" which they were tired
of, and the Granges and farm jour-
nals of his district had openly favor-
ed the discontinuance of seed distribu-
tion.

The debate on seeds might have
continued indefinitely under the "an-
imal industry" item if Mr. Wads-
worth had not made a motion putting
a stop to the debate, which was car-
ried on division by a vote of 97 to
62.

BANK CLOSED.

Its Failure to Open Monday Nearly
Resulted in a Panic.

Newport, Ark., May 1.—Bank of
Newport did not open Monday. Fol-
lowing notice was posted on a door:
"The directors have decided to close
until matters are adjusted." The bank,
which is capitalized at \$50,000 and has
deposits of over \$100,000, is one of
the most prominent in the state. As-
sets are not obtainable. The closing
almost caused a panic in Newport
business circles, as practically every
house was affected. The trouble is
supposed to have been caused by the
failure of the bank to collect more
than a \$100,000 loan made to a manu-
facturing firm a year ago.

NO INVESTIGATION.

Grand Jury Says Jerome Advised That
This Be Not Done.

New York, May 1.—The grand jury
for April, upon the completion of its
term Monday, returned a presentment
to Recorder Goff in which it declares
that it had failed to investigate polit-
ical contributions by insurance com-
panies because Mr. Jerome had advis-
ed the jury not to do so.

Recorder Goff accepted the present-
ment and discharged the jury, but in-
formed it that it had not done its full
duty, although it had rendered a signal
service in accentuating the "unequiv-
ocal responsibility which now rests
upon the district attorney."

TWENTY INJURED.

Collision Occurs Between Idle Miners
and Constabulary Force.

Mount Carmel, Pa., May 1.—In a
clash Monday between idle miners and
a constabulary force about twenty men
were injured, three of whom will prob-
ably die. Several hundred foreigners,
incensed at the presence of constabulary
force, threw rocks at latter. The
constables were protecting non-union
miners.

Local constables arrested Lieutenant
Smith on the charge of assault and
battery with intent to kill. He was
held in \$500 bail. Three of the miners
were held on the same charge.

PULAJANES SLAIN.

United States Troops Encountered
Several Bands of Them.

Manila, May 1.—Detachments of
Federal troops, while scouting Monday
in the Gardiara valley, island of Sa-
mar, encountered several bands of Pu-
lajanes. In the engagements that fol-
lowed many Pulajanes were killed and
their supplies destroyed. There were
no casualties among the troops.

STEAMER SINKS.

Three Members of Her Crew and One
Passenger Were Drowned.

London, May 1.—The passenger
steamer Courier, with a crew of nine
men, and carrying about twenty excur-
sionists, founded Monday off Sark
soon after leaving that island, and
sank immediately. Three members of
her crew and one passenger were
drowned, all the others being rescued.

READY FOR RIOTERS.

Cavalry and Infantry Take Up Posi-
tions on Paris Outskirts.

Paris, May 1.—Detachments of cav-
alry and infantry departed to take up
positions in the outskirts of the city.

Written List of Charges.

Chicago, May 1.—As per his request,
a written list of the charges against
Dowie, supported by affidavits, was
presented him. He was given until
Wednesday to reply.

Over Three Millions Sent.

New York, May 1.—The total trans-
fer of money to San Francisco by
telegram Monday amounted to \$3,400,
000.

Claims to Patronage.

Mrs. Lombard offered to rec-
ommend Miss Simpson to her friends
as a dressmaker she was honest in her
wish to help the little woman, but her
efforts bore more evidence of honesty
than of tact.

"I wish you would try Dora Simp-
son," she said earnestly to three of her
friends who were calling upon her one
day. "She's such a good little body
and so unfortunate! Her old customers
have dropped off one by one till there's
scarcely a person in the neighborhood
who employs her now."

"As I often say to my husband," con-
tinued Mrs. Lombard, with haste, as
she saw signs of inquiry on the faces
of her friends, "suppose she doesn't fit
very well. That doesn't alter the fact
that she has an invalid brother to sup-
port and that she tried everything else,
from stenography to cooking, and only
took up sewing as a last resort and
just hates every stitch she takes and
always has. Now, do try her, some of
you. She's been with me for the last
four days making a jacket for my Jim.
Dora is just as patient about it as can
be, though we've had it all to pieces
three times."—Youth's Companion.

The First Man Dressmaker.

The first male celebrity who made
his mark as a dressmaker was Rhom-
berg, the son of a Bavarian peasant
from the neighborhood of Munich. One
day in the month of May, 1730, a beau-
tiful equipage was seen driving about
Paris with an escutcheon in the shape
of a corset and an open pair of scissors
in the middle painted on the panel of
each door. That was Rhomberg's coat
of arms, and it told its own tale. He
was a genius in his way and owed his
success chiefly to his skill in disguis-
ing slight deformities and bringing out
the most attractive charms of his fair
customers. He rapidly made a fortune
and left his heirs an annual income of
50,000 francs. Under the first empire
and the restoration Leroy supplied the
dresses of the ladies of the court and
the higher nobility from his splendid
mansion in the Rue Richelieu. An ef-
fusive encomium was written upon
him by Auger, a member of the acad-
emy.

Fulminate of Mercury.

A peculiarity of fulminate of mer-
cury is that it produces a shock to
which all other substances are sensi-
tive, and its supreme value as an ex-
plosive rests in this fact and in the
known liability of all explosives to be
detonated by more or less distant ex-
plosions. There is a current of sympa-
thetic influence in these terrible chem-
ical compositions that is as strange as
it is dangerous. What is required to
produce explosion is the rapid genera-
tion of great heat along with large
quantities of oxygen. In gunpowder,
for instance, the nitrate of potash
(saltpeter), which is the chief ingre-
dient, is practically imprisoned oxygen,
and when it is decomposed along with
charcoal an immense heat is developed,
which causes the gases to expand sud-
denly; hence explosion.

They Needed the Money.

A freight steamer once came into
Mariopol, a port on the sea of Azov,
which had among its cargo 100 pieces
of machinery numbered "M." from 1 to
100. When the pieces were unloaded
it was found that No. 87 was missing,
but two pieces numbered 88 showed
that there had been an error, the final
tally being correct. But the custom
officials did not take this view of the
matter, the port being in need of funds,
so they fined the ship 500 rubles for
being short of cargo as per manifest—
namely, No. 87—and 1,000 rubles for
smuggling, having two pieces num-
bered 88 when the manifest called for
but one.—Caroline Lockhart in Lippin-
cott's Magazine.

The Philosophy of Thunder.

Thunder is caused by the lightning
spark heating the air in its path, caus-
ing sudden expansion and compression
all around, followed by as sudden a
rush of air into the partial vacuum
thus produced. If the spark be straight
and short the clap will be short and
sharp; if its path be a long and crook-
ed one a succession of sounds, one after
the other, with a characteristic rat-
tle, will be heard, followed by the
echoes from other clouds. The echoes
have a rolling and rumbling sound.

The Tendon Achilles.

Anatomists fancifully call the big
tendon of the heel "tendon Achilles,"
after the Greek hero. The mythologic-
al story goes that his mother, Thetis,
holding him by the heel, dipped him in
the river Styx to make him invulner-
able. Put Paris inflicted a wound that
proved fatal on the heel that had not
been immersed.

A Dangerous Practice.

A.—Is dying the hair as dangerous
as the doctors would make it appear?
B.—Certainly! You take my word for
it. Only last spring an uncle of mine
died his hair, and in three weeks he
was married to a widow with four
children.—Fliegende Blatter.

Overdid It.

"So sorry not to have heard your
lecture last night," said the loquacious
lady. "I know I missed a treat. Every-
body says it was good."
"How did they find out?" asked Mr.
Frockcoat. "The lecture, you know,
was postponed."

The Clever Girl.

Daughter—I don't want to marry
just yet. I'd rather stay at school.
Mother—You must remember, dear,
men do not wish clever wives. Daugh-
ter—But all men are not like papa.

Taming a Rat.

A trapped rat may easily be tamed
by allowing no water but that offered
in a spoon, for the creature soon learns
to recognize the hand which supplies
this all important necessity.

The Tailor Bird.

The brilliantly plumed birds of the
tropical forests are exposed to many
dangers, and if they were not gifted
with peculiar yet useful instincts they
would fall ready victims to their ene-
mies. Chattering monkeys and big
snakes steal and eat their eggs, while
their offspring are preyed upon by foes
on every side. But it takes a sly mon-
key or snake to get ahead of the tailor
bird, a small East Indian singing bird.
She hides her nest so skillfully that her
enemies cannot find it, no matter how
hard they try. This she does by using
her long, slender bill as a needle. With
the tough fiber of a parasitic plant
abundant in the tropics, as a thread
she sews a dead leaf taken from the
end of a slender and hanging branch,
and between these leaves she builds
her nests, where neither monkey nor
snake can approach, because the
branch will not bear its weight.

A Miniature Inland Ocean.

One of the queerest sheets of water
in New England or within the limits of
the United States, or the world for
that matter, is the celebrated "Snow's
ocean" in the state of Maine. When
calm it is to all appearances an ordinary
pond of no great dimensions, but ob-
servations and investigations made
more than a century ago prove that the
little body of water is a veritable
ocean. It is located in Orrington, near
Bangor, and its peculiarity is that, al-
though situated among some high hills
some distance from ocean or river, it
has tides which rise and fall as regular-
ly as do those of the great Atlantic.
Many so called scientific examinations
of this miniature ocean's bed and sur-
rounding banks have been made, but
so far no tenable explanation of the
phenomenon has ever been given to the
public.

Labor in Old Times.

Twelve hours in winter and fourteen
in summer was a fair average day's
work, but in Lyons in 1571 the print-
ers worked from 2 o'clock in the morn-
ing till 8 or 9 in the evening. In other
trades the working hours were often
from 4 in the morning till 9 at night
or from 5 to 10. Workers in the same
metier generally lived together in the
same street, but the maitre artisan
had his own maison. The ground floor
was his shop or workshop; above was
his bedroom, which was also the sit-
ting and eating room; a small room ad-
joining accommodated his children, and
above was a garret where various
commodities were stored.—Brisson's
"Work and Workers."

Capsicum.

The capsicum plant, from which the
different varieties of pepper are pro-
duced, is indigenous to the tropical re-
gions of Europe, Asia, Africa and
America. It grows wild almost as
well as under cultivation in all these
countries, and in each is used by the
natives as a seasoning for food. Its
extensive employment has suggested to
medical theorists the thought that it
must be considered as a natural tonic
for the stomach in tropical countries.

Mermaids.

All the world over there are legends
about mermaids. The Chinese tell
stories not unlike others about the sea
woman of their southern seas. Man-
kind is taught on the most excellent
evidence that a mermaid was captured
at Bangor, on the shores of the Bel-
fast lough, in the sixth century, while
another caught at Edam in 1403 was
carried to Haarlem and kept there for
many years.

Wanted All That Was In It.

Father (whose wife has presented
him with twins)—Tommy, you may
stay home from school today and to-
morrow tell the teacher that you have
two new brothers. Tommy—Wouldn't
it be better to say that I have only one
new brother? Then I can stay home a
day next week for the other one.—
Fliegende Blatter.

Health Crazes.

The pursuit of health, like the mor-
phia habit or drunkenness, grows on
people till it really becomes a vice.
Continuous thought and anxiety about
one's health is extremely bad for the
constitution and undermines it quicker
than port wine.—London Queen.

Sure Thing.

Teacher—A miracle is going against
the natural order of things. Are mir-
acles performed today? Bright Boy—
Yes'm. Teacher—Name one. Bright
Boy—Well, mamma says that papa is
always turning night into day.—Life.

Making Bread With Sea Water.

At one time sea water was used in
some English seaside places when mak-
ing bread. Even now villages along the
coast line of France utilize it. Fresh
rain or spring water is only used for
the leaven, pure sea water being exclu-
sively employed for the making and
mixing of the dough. By this method
no mineral or table salt requires to be
added, the natural salt water giving
the bread the necessary degree of salu-
tinity. But, though sea water does ad-
mirably for breadmaking, when ap-
plied to other culinary purposes the
result is a disagreeable failure. The
wheat bread produced by it, how-
ever, is excellent and of great hygienic
value. The chloride of magnesium,
which imparts the acid taste to sea
water, is decomposed in the heating
and therefore does not convey its origi-
nal disagreeable taste to the bread,
while the common salt, of course, per-
manently retains all its characteristic
saline properties. The mineral sub-
stances left in the baked bread are con-
sidered to be of the nature of very mild
regulating medicines.—London Mail.

Original Natural History.

The Rev. Samuel Peters was the man
who made Connecticut's blue laws fa-
mous by their publication in his his-
tory of that state. In that interesting
volume the following original bit of
natural history is to be found: "In the
Connecticut river, 200 miles from Long
Island sound, is a narrow of five yards
only formed by two shelving moun-
tains of solid rock whose tops inter-
cept the clouds. Through this chasm
are compelled to pass all the waters
which in the time of floods bury the
northern country. Here water is con-
solidated without frost, by pressure, by
swiftness, between the pinching sturdy
rocks to such a degree of induration
that an iron crow floats smoothly down
its current. Here iron, lead and cork
have one common weight; here, steady
as time and harder than marble, the
stream passes irresistible if not swift
as lightning."

Cattle Killed by Hail.

Ardmore, May 1.—At Abner, in the
Chickasha nation, hail killed cattle
in some places it is declared to have
been five feet deep.

None can tell where the diamond goes
to in combustion. When burned it
leaves no ash and not a trace of the
once brilliant stone.

FRECKLES AND PIMPLES
REMOVED In Ten Days.

Nadinola
The Complexion
Beautifier is en-
dorsed by thousands
of grateful ladies, and
guaranteed to remove
all facial discolora-
tions and restore the
beauty of youth. The
worst cases in twenty days. 50c. and \$1.00
at all leading drug stores, or by mail.
Prepared by NATIONAL TOILET CO., Paris, Teas.
